

REMARKS

In an Office Action dated 8 February 2007, the Examiner gave notice of Drawing Inconsistency with Specification. In the notice, the Examiner noted that the Specification had not included a brief description of FIG. 3 in the Brief Description of Drawings.

The Applicant now seeks to amend the Specification to include a brief description of FIG. 3 in accord with the notice. Additionally, the Applicant deletes the word “prospective” (possibly referring to a perspective view) from each of the several brief descriptions of drawings in which it was used in favor of the more technically correct description of the drawings as “isometric.”

CONCLUSION

In summary, amendment to the specification has restored the correspondence between the number and designation of drawings and their description within the specification..

The applicant respectfully requests that any issues or concerns of the Examiner continue to be addressed to applicant's attorney of record, the undersigned.

Respectfully submitted,
